Benjamin Franklin

The Palace of Versailles. It is located in France and was built in the 17th century by King Louis XIV. The money to build it came from the colonies. This project led to the bankruptcy of France which fueled the French Revolution.

Course Notes & Other Important Information:

- You are responsible for your own learning, and for trying your best every day. If you do not understand something, **ASK** your teachers to help you, either during class, after, or during 10th period.
- **If you are absent, it is *your responsibility* to inquire about missed assignments.** As per school policy, you will have the same number of days you were absent to make up the work. For example, if you are out for one day, you must hand in that assignment the day after you return. Likewise, if you are out 3 days, you will have three days to make up the work, *including the day you return*.
- All late assignments, projects, presentations, and papers (other than homework) will lose 10 grade points per day, ***without exception. Late homeworks will lose 20 points per day.***
- Please come to class on time. Lateness will not be tolerated. Lateness is defined here as 1 second after the bell rings, and without a legitimate pass. After a warning, continued lateness will receive increasingly long detentions with a call to parents or guardians.
- Please be respectful and courteous to each other at all times.
- Always be truthful. I am much more likely to be lenient with an honest student, and will be better prepared to help you in any way that I can.
- *Have a successful year!*
